Use of Cookies

The ENPOINTE websites use "cookies" to help you personalize your online experience. A cookie is a text file that is placed on your hard disk by a web page server. Cookies cannot be used to deliver viruses to your computer. Cookies are uniquely assigned to you and can only be read by a web server in the domain that issued the cookie to you.

One of the primary purposes of cookies is to provide a convenience feature to save you time. The purpose of a cookie is to tell the web server that you have returned to a specific page. For example, if you personalize our website pages or register with an ENPOINTE site or service, a cookie helps us to recall your specific information on subsequent visits. This simplifies the process of recording your personal information, such as billing addresses, shipping addresses, and so on. When you return to the same website, the information you previously provided can be retrieved, so you can easily use the features that you customized.

You have the ability to accept or decline cookies. Most web browsers automatically accept cookies, but you can modify your browser setting to decline cookies if you prefer. If you choose to decline cookies, you may not be able to fully experience the interactive features of ENPOINTE services or websites you visit.

Security of your Personal Information

ENPOINTE secures your personal information from unauthorized access, use or disclosure. We secure the PII you provide on computer servers in a controlled, secure environment, protected from unauthorized access, use or disclosure. When PII (such as a credit card number) is transmitted to other websites, it is protected through the use of encryption, such as current Secure Socket Layer (SSL) protocols.

We encourage you to periodically review this statement to be informed of how we are protecting your information. We also encourage you to review the privacy statements of websites you choose to link to from ENPOINTE, so that you can understand how those websites collect, use, and share your information.
